

Hello Plantation Preserve Community!

It's that time of year again and the Board would like to remind everyone to Spring forward on March 11th.

This is also a good time to change your clocks and batteries. Fire departments and safety officials stress the importance of remembering to change the batteries in smoke detectors and household alarms during Daylight Saving Time while changing clocks. It's the best time to remember to keep up with maintenance on safety devices.

If you need assistance with changing smoke detector batteries or any other handyman services, you can contact one of our very own residents, Klaus Mueller. Klaus has lived in our community for over 13 years and can help with any work you need completed. No job is too small or too large for him. He may be reached via phone at (239) 770-4529 or via email at kmueller39@gmail.com.

Many of us learned with Hurricane Irma that our roofs are the first line of defense against the elements including rain, sun, and heat. Normal wear and tear due to exposure can shorten the longevity of our roofs but clay tiles can last over 50 years if kept in good condition. Regular cleaning is one way to ensure your roof is in prime condition. Michael Sembert specializes in power washing, window cleaning, and screen replacement. He is licensed and insured and can be reached via phone at (239) 770-5756.

The Board would like to thank Steve Risvold for his service as Site Administrator for our community. Our Facebook account has been deactivated and we no longer have access to this account. We are in the process of determining the best communication method for our community but in the interim, please feel free to send any suggestions, kudos, concerns, or general feedback via the Contact tab.

The HOA meeting for March has been cancelled due to Spring Break and vacations. HOA meetings will resume Tuesday, April 17th at 6:00 pm by the pool. We hope to see you there.

Work has been completed on the back gate and updated with new software. If your clicker is not working, remove the back of clicker where the battery is stored. Call our office and provide the 5 digit code from the sticker and we will have the technician reprogram the gate. Our apologies for the inconvenience.
